Installation Guide

WARNING

YOUR DEVICE MUST BE ADDED TO YOUR ACCOUNT BEFORE THE INSTALLATION TAKES PLACE. PLEASE FOLLOW THE INSTRUCTIONS ON THE REVERSE OF THIS USER GUIDE AND THEN INSTALL THE DEVICE.

Follow the steps below

Upon installation the DB4's LEDs will flash between green and blue whilst establishing a GPS signal, which can take up to 2 mins. Once complete, the LED's will become solid green.

Private/business mode

Switch driving mode by simply pressing the middle button once

Private mileage mode is indicated by a Green LED

Business mileage mode is indicated by a Red LED

If the LEDs start flashing blue during a trip, it means the device is struggling to pick up a GPS signal. You may need to relocate the device and ensure there are no obstructions.

You can find the business and private mileage reports on your GPSTLive account under „Trip Logs“.
